

**SABINA GOLD & SILVER CORP.**

**BACK RIVER PROJECT**

**Health & Safety Supervisor**

The Health & Safety Supervisor will work with their cross shift to lead Health & Safety aspects of the Back River Project. Working on rotation at the Back River Project, and reporting to the site operations team, the Health & Safety Supervisor collaborates with all members of the Back River team to ensure that the Health & Safety goals and objectives are achieved.

**General Job Function**

- Ensure a safe work environment for all project employees, contractors, and visitors.
- Develop and implement controls to ensure compliance with relevant acts and regulations.
- Promote continuous improvement of performance by improving Health & Safety programs and procedures.
- Ensure that safety compliance inspections and incident investigations are completed including hazard analysis, safe work procedures, written reports, and recommendations.
- Develop and provide relevant training.
- Provide Health and Safety leadership, guidance, and support to promote a positive Health & Safety Culture.
- Uphold business continuity and emergency management plans and procedures.
- Complete monthly reporting.
- Support the development of the Corporate Health & Safety Management System.

**Leadership Experience**

- A minimum of 10 years of experience in Health & Safety, preferably in the mining, development, or construction industry.
- A relevant undergraduate degree or equivalent experience.
- A Canadian Registered Safety Professional (CRSP) or similar designation is an asset.
- Experience with underground mining or development is an asset.
- Supervisor Lever II Ticket is an asset.
- Ability to speak publicly and make presentations.
- Ability to manage numerous projects in a timely manner while recognizing their respective priorities.
- Ability to work under pressure and responds to requests under time restraints.
- Medically fit.
- Must be computer literate including word processing, spreadsheet, and email programs.

*\* This role is based at the Back River Project in the Kitikmeot Region of Nunavut. Must be willing to travel (approximately 3 weeks on, 3 weeks off rotation). Longer rotations may be considered.*

*\* The final position title and compensation will be based on degree of experience of the successful candidate. More experienced, or less experienced candidates are welcome to apply - title and compensation adjustments will be appropriate to the candidate.*

*\* Please submit applications to [employment@sabinagoldsilver.com](mailto:employment@sabinagoldsilver.com) noting Health & Safety Supervisor in the title.*
