Heavy Equipment Technician - 10031

ABOUT THE COMPANY

Sabina Gold & Silver Corp. is a well-financed Canadian precious metals company on track to become a mid-tier gold producer. The Company has a portfolio of properties in Canada at different stages of development. Our flagship project, the Back River Gold Project, is located in the western Kitikmeot Region of Nunavut. Through our Nunavut assets, Sabina is evolving from a successful exploration company to a developer. Sabina is listed on the Toronto Stock Exchange ("SBB").

ABOUT THE POSITION

Reporting to the Maintenance Lead Hand or Designate, the Heavy Equipment Technician will diagnose, repair, adjust, overhaul, maintain, test and perform planned and unplanned maintenance on mobile or stationary heavy-duty equipment to ensure safe & efficient use. The HET works on a rotational basis (3x3) in a remote setting where repairs may be required to occur in a mobile equipment shop, a temporary staging location or outside in inclement conditions.

PRIMARY RESPONSIBILITIES

Reporting to the Maintenance Lead Hand or Designate, duties will include (but are not limited to):

- Monitor equipment conditions to ensure safe & efficient use and identify any areas in need of repair or improvement. Equipment includes but not limited to: D6-D8 dozers, 200-349 track hoes, 730 articulated rock trucks, 775 haul trucks, 14H-14M graders, generators, crusher screening units, loaders, drills, shovels & compactors;
- Conduct diagnostic procedures on equipment such as troubleshooting, repairing, and performing scheduled and unscheduled maintenance as required.
- Perform pre-inspections of equipment and test repaired equipment for proper performance and to ensure that work meets or exceeds manufacturers' specifications;
- Communicate and work with supervisors and planners/site teams to complete planned & unplanned maintenance;
- Document work & repairs completed and report to supervisor any deficiencies;
- Fabrication alternative componentry for equipment which will effectively and safely substitute for OEM parts; and
- Participate in safety toolbox talks and follow all site policies & procedures to ensure compliance.

DESIRED QUALIFICATIONS

The ideal candidate will have experience working in a remote camp setting with limited access to resources. Additionally, they will have:

- Three (3) years of post-qualification industry experience, preferably in an isolated remote setting with limited access to parts and resources;
- Interprovincial Red Seal Heavy Duty Equipment Technician or Nunavut Heavy Equipment Technician CoQ;
- Experience troubleshooting, repairing, and performing maintenance on the following (but not limited to) equipment: D6-D8 dozers, 200-349 track hoes, 730 articulated rock trucks, 775 haul trucks, 14H-14M graders, generators, crusher screening units, loaders, drills, shovels & compactors;
- Valid drivers license is required; and
- Previous experience in mining, heavy industry or construction is considered an asset.

COMPENSATION AND BENEFITS

For informational purposes, the blended hourly rate range is \$60.00 – 71.00 (based on prior experience and qualifications) for 2184 scheduled hours in a work year. Competitive benefits and travel compensation will be discussed with the successful candidate.
