Junior Geologist - 10074

ABOUT THE COMPANY

Sabina Gold & Silver Corp. is a well-financed Canadian precious metals company on track to become a mid-tier gold producer. The Company has a portfolio of properties in Canada at different stages of development. Our flagship project, the Back River Gold Project, is located in the western Kitikmeot Region of Nunavut. Through our Nunavut assets, Sabina is evolving from a successful exploration company to a developer. Sabina is listed on the Toronto Stock Exchange ("SBB").

ABOUT THE POSITION

Reporting to the Manager, Technical Services, the Junior Geologist is responsible for the organization and digitization of historical and recent data and maps for the Exploration department relating to the Back River Project. Based in our Vancouver Corporate office this role is suited for a student or recent graduate with a strong attention to detail, excellent organizational skills, and with a background in Geology. This is a Monday - Friday temporary role (4-month contract) with possibility of extension.

PRIMARY RESPONSIBILITIES

Reporting to the Manager, Technical Services duties will include (but are not limited to):

- Organization of digital files relating to diamond drill hole analysis;
- Reporting on work completed to Supervisor;
- Digitization of select PDF and paper datasets;
- Matching analytical results with sample information;
- Working both in a team and independently to ensure high data quality;
- Rectifying and digitizing historical maps using GIS software (gGIS, Global Mapper); and
- Working in an office setting in downtown Vancouver (40-hour work week, Monday-Friday).

DESIRED QUALIFICATIONS

- 2+ years of Secondary Education from a recognized Geology program required;
- Experience using Microsoft Office with a focus on Excel;
- Excellent research skills and attention to detail;
- Previous field work in an exploration or mining camp;
- Previous database experience;
- Knowledge of QA/QC programs; and
- Previous experience using GIS software (gGIS, Global Mapper).

COMPENSATION AND BENEFITS

The rate of pay for this position is \$27.00 – 30.00 per hour (based on year of study).

Junior Geologist - 10074

APPLICATION AND CONTACT INFORMATION

To be considered for this opportunity, please email your resume to employment@sabinagoldsilver.com using the reference number 10074 in the subject line.

Kitikmeot Inuit, Nunavut Inuit and Residents receive priority hiring consideration, if one these categories applies, please state it after the reference number in the subject line. We thank all for their interest but are only considering applicants with working rights in Canada.

The Sabina owed Back River Gold Project is a significant undertaking with contribution from both Sabina and valued Contractors. Although we appreciate your interested in working for Sabina directly; if you are not selected for employment with Sabina or we have no current work available that is suitable for your skill set, Sabina may share your application material with our contractors for positions that they are seeking to fill. If you do not want your resume shared, please indicate so in the subject line of your email and we will retain a copy of your application material for our internal records only.

We will retain application material on file for future vacancies (openings within 6-12 months) for consideration; however, you are encouraged to apply to any opening you may be suited for. If selected to move forward a member of our team will be in touch.

CLOSING DATE

This posting will remain open until 12:00AM PST January 27, 2023 unless a suitable candidate is not found; however, we encourage interested applicants to submit their resumes ASAP in order to be considered.
