Skilled Labourer - 10075

ABOUT THE COMPANY

Sabina Gold & Silver Corp. is a well-financed Canadian precious metals company on track to become a mid-tier gold producer. The Company has a portfolio of properties in Canada at different stages of development. Our flagship project, the Back River Gold Project, is located in the western Kitikmeot Region of Nunavut. Through our Nunavut assets, Sabina is evolving from a successful exploration company to a developer. Sabina is listed on the Toronto Stock Exchange ("SBB").

ABOUT THE POSITION

The Skilled Labourer is responsible for a wide range of functions to maintain and support site operations in an organized, safe, and efficient manner. Reporting to the Supervisor, Site Services or designate the Skilled Labourer's primary function is ensuring site services are maintained and up to established standards, which includes the use of equipment for air strip maintenance, exploration team support, aircraft ground support, fresh water supply, signage, cleaning, waste management, maintenance, parking, safety inspections, security, general carpentry work, repair, and snow removal while working on a rotational (3x3) basis.

PRIMARY RESPONSIBILITIES

Reporting to the Supervisor, Site Services duties will include (but are not limited to):

- Assist Tradespeople in performing daily functions at the mine, such as assisting operators in avoiding any potential collisions or accidents;
- Complete ground crew responsibilities for inbound and outbound flights;
- Maintaining general camp duties such as carpentry work to ensure site functions are maintained, and completing repairs as necessary;
- Ensure that trucks and equipment are safely and securely stored;
- Organize the sea cans and ensure accessibility throughout the year;
- Load, unload, and identify construction materials, machinery, and tools, and distribute them to the appropriate locations;
- Clean and prepare sites to eliminate possible hazards e.g. tripping hazards; and ensure all safety standards are met;
- Keep entrances clear of rubbish and unwanted items in accordance with site standards;
- Clean and stack salvaged material to a safe standard, clean up chemical spills and other contaminants in accordance with health and safety practices;
- Shovel, plow, and sand pathways as required during winter months; and
- Report deficiencies in site operating equipment and product stocking levels as required to management.

DESIRED QUALIFICATIONS

The successful candidate will have prior experience working in a remote camp setting with limited access to resources. Additionally, they will have:

- Three (3) years' of general labourer experience with exposure to heavy equipment. Prior work at a mine site and/or remote location is required;
- Proven carpentry experience;
