Superintendent, Maintenance - 10072

ABOUT THE COMPANY

Sabina Gold & Silver Corp. is a well-financed Canadian precious metals company on track to become a mid-tier gold producer. The Company has a portfolio of properties in Canada at different stages of development. Our flagship project, the Back River Gold Project, is located in the western Kitikmeot Region of Nunavut. Through our Nunavut assets, Sabina is evolving from a successful exploration company to a developer. Sabina is listed on the Toronto Stock Exchange ("SBB").

ABOUT THE POSITION

The Superintendent, Maintenance is responsible for ensuring that all site-based light, heavy mobile and stationary equipment is maintained in accordance with manufactures' specifications and corporate standards. Based in a remote camp setting with limited access to resources, the Superintendent, Maintenance will oversee Heavy Equipment Technicians, Automotive Mechanics, Welders and other related trades and servicemen to ensure maximum machine availability and uptime. Additional responsibilities will include the training of new employees on work procedures and aid in the reduction of overall costs of maintenance and related idle time while working on a rotational (3x3) basis.

PRIMARY RESPONSIBILITIES

Reporting to the Manager, Maintenance, duties will include (but are not limited to):

- Plans, coordinates, distributes, and evaluates the work of the Maintenance department;
- Identify, source and issue purchase request mechanical parts and components required for maintenance activities;
- Develops long range detailed plans, schedules, and procedures for the systematic preventative maintenance of all equipment;
- Prioritizes unscheduled repairs in a manner that maximizes the cost efficiency of other site operations;
- Work with the Manager, Maintenance to ensure department activities are within budgets and scheduled timelines;
- Reviews progress of work and compares the actual results with the planned results and initiates corrective action as required;
- Provides input into shop layout to ensure that the most effective arrangement of maintenance facilities and equipment is obtained;
- Trains employees and installs work procedures to improve the efficiency of maintenance operations;
- Studies and develops methods of maintenance and revises periodically the program to improve the quality of the maintenance and reduce the cost; and
- Records maintenance equipment logs, develops preventative maintenance schedules to minimize loss of production, manage inventories and keeps an equipment availability record (record utilization time).

DESIRED QUALIFICATIONS

The successful candidate will have prior experience working in a remote camp setting with limited access to resources. Additionally, they will have:

- Seven (7) years of experience in maintenance of mining heavy equipment with a minimum of three (3) years of experience in a supervisory role;
- A Red Seal interprovincial trade certification as a Heavy Equipment Technician (HET), or an equivalent Nunavut Blue Seal designation, supplemented with managerial, business and financial course work; and

- Previous experience working in a remote mine site in Arctic conditions is required.

COMPENSATION AND BENEFITS

The starting salary for this role is \$180,000.00 annually for 2184 scheduled hours in a work year. Competitive benefits, bonus, and travel compensation will be discussed with the successful candidate.

APPLICATION AND CONTACT INFORMATION

To be considered for this opportunity, please email your resume to employment@sabinagoldsilver.com using the reference number 10072 in the subject line.

Kitikmeot Inuit, Nunavut Inuit and Residents receive priority hiring consideration, if one these categories applies, please state it after the reference number in the subject line. We thank all for their interest but are only considering applicants with working rights in Canada.

The Sabina owed Back River Gold Project is a significant undertaking with contribution from both Sabina and valued Contractors. Although we appreciate your interested in working for Sabina directly; if you are not selected for employment with Sabina or we have no current work available that is suitable for your skill set, Sabina may share your application material with our contractors for positions that they are seeking to fill. If you do not want your resume shared, please indicate so in the subject line of your email and we will retain a copy of your application material for our internal records only.

We will retain application material on file for future vacancies (openings within 6-12 months) for consideration; however, you are encouraged to apply to any opening you may be suited for. If selected to move forward a member of our team will be in touch.

CLOSING DATE

This posting will remain open until 12:00AM PST January 27, 2023 unless a suitable candidate is not found; however, we encourage interested applicants to submit their resumes ASAP in order to be considered.
