Supervisor, Construction (MLA) - 10009

ABOUT THE COMPANY

Sabina Gold & Silver Corp. is a well-financed Canadian precious metals company on track to become a mid-tier gold producer. The Company has a portfolio of properties in Canada at different stages of development. Our flagship project, the Back River Gold Project, is located in the western Kitikmeot Region of Nunavut. Through our Nunavut assets, Sabina is evolving from a successful exploration company to a developer. Sabina is listed on the Toronto Stock Exchange ("SBB").

ABOUT THE POSITION

The Supervisor, Construction (MLA) is responsible for the supervision, coordination, and scheduling of the multidisciplinary MLA crew, who is accountable for the Marine Laydown Area's (MLA) development and operations (including, but not limited to, civil earthworks, mechanical installations, winter ice road construction, and barging operations). Reporting to the Superintendent, Construction, the Supervisor aids in the supervision of heavy equipment operation, crane operation, and other work performed by the team to ensure compliance of site safety policies and provide guidance regarding accurate maintenance procedures. This role is based at the Back River Project near the Kitikmeot Region of Nunavut in a camp setting and works on a rotational basis (3x3).

PRIMARY RESPONSIBILITIES

Reporting to the Superintendent, Construction, duties will include, but are not limited to:

- Supervise, coordinate, and schedule the activities of the MLA team, including (but not limited to): Heavy Equipment Operators, Crane Operators, Contractors and subcontractors;
- Ensure work is being completed properly by team members and provide guidance as required. Verify the appropriate procedures prior to taking action and communicate clearly to the team expectations of work;
- Prioritize work order requests with the Superintendent, Construction to organize jobs & execute according to level of urgency and the weekly schedule;
- Review work orders and key performance indicators (KPI'S) and decide on corrective measures to be taken. Communicate KPI's effectively to the team;
- Requisition materials and supplies; and
- Lead by example by executing best operational practices daily to promote and ensure compliance of Sabina's safety procedures.

DESIRED QUALIFICATIONS

The successful candidate will have prior experience working in a remote camp setting and experience working with Indigenous groups in a professional setting. Additionally, they will have:

- Five (5) years' of supervisory experience, preferably in a remote setting with limited access to parts and resources;
- Provincial certification as a mine supervisor (preferred) or shift supervisor with experience in a civil and mechanical construction;
- Experience in software systems, proven organizational skills, and familiarity with industry terminology considered an asset; and,
- Excellent communication and negotiation skills.

COMPENSATION AND BENEFITS

For informational purposes, the salary range is \$120,000K – 132,000K annually (based on prior experience) for 2184 scheduled hours in a work year. Competitive benefits, bonus, and travel compensation will be discussed with the successful candidate.
