Supervisor, Earthworks - 10008

ABOUT THE COMPANY

Sabina Gold & Silver Corp. is a well-financed Canadian precious metals company on track to become a mid-tier gold producer. The Company has a portfolio of properties in Canada at different stages of development. Our flagship project, the Back River Gold Project, is located in the western Kitikmeot Region of Nunavut. Through our Nunavut assets, Sabina is evolving from a successful exploration company to a developer. Sabina is listed on the Toronto Stock Exchange ("SBB").

ABOUT THE POSITION

The Supervisor, Earthworks is responsible for the supervision, coordination, and scheduling of activities for the Earthworks team. Reporting to the Superintendent, Construction, the Supervisor oversees and coordinates a multidisciplinary crew to complete duties as assigned (including, but not limited to, heavy equipment operation, drilling, blasting, lining installation, crusher/screener operation and other work required for earthworks construction on site). This individual ensures compliance of site safety policies while providing guidance regarding accurate maintenance procedures to the team and works on a rotational basis (3x3) in a remote camp setting based at the Back River Project.

PRIMARY RESPONSIBILITIES

Reporting to the Superintendent, Construction, duties will include, but are not limited to:

- Supervise, coordinate, and schedule the activities of the earthworks team, including (but not limited to): Heavy Equipment Operators, drillers, blasters, lining installers, crusher/screener operators, contractors and subcontractors on site;
- Ensure work is being completed safely and properly by team members, providing guidance as required. Verify the appropriate procedures prior to taking action and communicating clearly to the team expectations of work;
- Prioritize work order requests with the Superintendent, Construction to organize jobs & execute according to level of urgency and weekly schedule. Interface regularly with teams across site to schedule mining activities;
- Review work orders & key performance indicators (KPI'S) to decide on corrective measures and communicate effectively to the team;
- Read IFC drawings and coordinate work effort required by the crew to for completion;
- Promote and ensure compliance of Sabina's safety standards. Participate in safety toolbox talks with the crew;
- Requisition materials and supplies; and
- Other duties as assigned.

DESIRED QUALIFICATIONS

The successful candidate will have prior experience working in a remote camp setting and experience working with Indigenous groups in a professional setting. Additionally, they will have:

- Five (5) years' of civil construction experience in a supervisory capacity (preferably in hard rock mining in an remote setting with limited access to parts and resources);
- Provincial certification as a Mine Supervisor (preferred) or Shift Supervisor, with experience in civil earthworks, crushing, screening, and liner installation;
- Experience in software systems, proven organizational skills, and familiarity with industry terminology considered an asset; and
- Excellent communication and negotiation skills.

COMPENSATION AND BENEFITS

For informational purposes, the salary range is \$120,000K – 132,000K annually (based on prior experience) for 2184 scheduled hours in a work year. Competitive benefits, bonus, and travel compensation will be discussed with the successful candidate.
