## Supervisor, Site Services (MLA) - 10032

### ABOUT THE COMPANY

*Sabina Gold & Silver Corp. is a well-financed Canadian precious metals company on track to become a mid-tier gold producer. The Company has a portfolio of properties in Canada at different stages of development. Our flagship project, the Back River Gold Project, is located in the western Kitikmeot Region of Nunavut. Through our Nunavut assets, Sabina is evolving from a successful exploration company to a developer. Sabina is listed on the Toronto Stock Exchange ("SBB").*

### ABOUT THE POSITION

The Supervisor, Site Services (MLA) is located at the Marine Laydown Area and is responsible for providing direct support to the Superintendent and Manager, Site Services. This role is an integral part of ensuring sites are maintained and up to established standards, including ensuring that Site Services personnel and service providers are maintaining site areas and systems in an appropriate and safe manner and to the prescribed standards. Working on a rotational basis (3x3) the Supervisor, Site Services (MLA) is responsible for ensuring that all frontline employees are in compliance with applicable health & safety legislative and corporate standards.

### PRIMARY RESPONSIBILITIES

Reporting to the Superintendent/Manager, Site Services, duties will include (but are not limited to):

- Executing Managements direction of daily operations such as air strip maintenance, exploration team support, aircraft ground support, fresh water supply, signage, cleaning, waste management, maintenance, parking, safety inspections, security and snow removal;
- Oversee and delegate functions as needed to ensure that facilities staff are able to perform their functions safely with the goal of minimizing the risk of hazards and achieve our goal of zero accidents;
- Maintain accurate logs of reported stocking levels and deficiencies with site operating equipment and report to the Superintendent, Site Services;
- Participate in daily safety briefings and monitor compliance with discussed topics;
- Provide the Superintendent with reports of Site Services activities;
- Train frontline employees on corporate standard operating procedures (SOPs), company policies, objectives and goals; and
- Report any adverse incidents, deficiencies or other related performance concerns to the Superintendent, Site Services.

### DESIRED QUALIFICATIONS

The successful candidate will have prior experience working in a remote camp setting with limited access to resources. Additionally, they will have:

- Four (4) years of experience in a remote mining setting in a logistics, camp or facilities role, with some Lead Hand experience;
- Diploma in Business Management, logistics or a building operator certificate or related trade designation; and
- Knowledge of heating, electrical generation and distribution, structures, plumbing and environment control systems in a remote off grid configuration is required; ability to operate light industrial equipment, such as skid steers, forklifts and the like, is an asset.
