Trainer/Health & Safety Advisor - 10003

ABOUT THE COMPANY

"Sabina Gold & Silver Corp. is a well-financed Canadian precious metals company on track to become a mid-tier gold producer. The Company has a portfolio of properties in Canada at different stages of development. Our flagship project, the Back River Gold Project, is located in the western Kitikmeot Region of Nunavut. Through our Nunavut assets, Sabina is evolving from a successful exploration company to a developer. Sabina is listed on the Toronto Stock Exchange ("SBB")."

ABOUT THE POSITION

As part of the Health & Safety Team, the Trainer/Health and Safety Advisor will promote health, safety, and training aspects of the Back River Project working on a rotational basis (3x3) in a remote camp setting. Reporting to the Site Safety Supervisor or Designate, the Trainer/Health and Safety Advisor works with all members of the Back River Project to ensure that the health, safety, training goals and objectives are achieved and supports a positive health and safety culture.

PRIMARY RESPONSIBILITIES

Reporting to the Site Safety Supervisor, duties will include, but are not limited to:

- Ensure a safe environment for all project employees, contractors, and visitors. Promote and implement controls to ensure compliance with relevant acts and regulations, promote continuous improvement of performance through Health & Safety programs and procedures;
- Perform safety related inspections, assist with incident investigations, and aid departments with job hazard analysis development to ensure compliance of relevant acts, regulations, and Sabina's Health & Safety program;
- Perform heavy equipment theory and practical training. Perform health and safety training;
- Conduction theoretical training in a classroom environment and practical training at the worksite on various mobile and mining equipment;
- Develop and maintain training programs, evaluations, and Sabinas training matrix;
- Liaise with departments regarding their needs to coordinate training schedules on a operational basis; and
- Provide assistance as required to the Safety Team & Operations team. Other duties as assigned by the Health & Safety Supervisor.

DESIRED QUALIFICATIONS

The ideal candidate will have prior experience working in a remote camp setting on a rotational basis. Additionally, they will have:

- Five (5) years of experience in a Health and Safety role with five (5) years of experience in heavy equipment and health and safety training role, preferably in the mining, development or construction industry;
- Bachelor's Degree or Diploma in related field or equivalent experience required;
- A Canadian Registered Safety Professional (CRSP) or similar designation and Supervisor Lever II Ticket considered an asset;
- Train the Trainer certification considered an asset; and
- Computer literate including word processing, spreadsheets and email programs required.
